

PROJECT MANAGER CONSULTING JOB DESCRIPTION

Description:

Our company has an immediate opening for an experienced **Project Manager**, with 5-7 years of proven experience in managing SAP based projects of various sizes, preference given to previous MII project experience. The candidate will work with the RTS Development Team and clients to understand system and project requirements and will lead a team of consultants charged with meeting client needs.

This immediate need requires the candidate be a US Citizen or US Resident Alien, others will be considered for additional positions currently being developed. Preferred location is the Baltimore/Washington, DC area.

Qualifications:

- Bachelor's Degree or equivalent combination of education and work experience.
- Minimum 5-7 years of professional experience with ERP, MIS, SQL & Information Technology industry
- Minimum 2 years' experience in successfully leading a team of developers to reach required objectives, in one or more, full life cycle, SAP system implementations
- PMP/PgMP Certification preferred
- Experience in two or more SAP modules including: PP, PM, QM, PP-PI, BW, BWI, HR, FI/CO and ALE technologies (BAPI, RFC, IDOCs)

Job Requirements:

- Directing and managing project development from beginning to end
- Ability to define project scope, goals and deliverables that support business goals in collaboration with senior management and stakeholders
- Development of full-scale project plans and associated communication documents
- Effectively communicate project expectations to team members and stakeholders in a timely and clear fashion
- Estimate resources and participants needed to achieve project goals
- Draft and submit budget proposals and recommend budget changes where necessary
- Develop and deliver progress reports, proposals, requirements documentation and various presentations
- Ability to handle multiple projects and switch quickly and comfortably between projects as determined by client need
