

MAIDSTONE

BAKERIES

To RTS Consulting,

I gladly comply with providing a reference letter for RTS Consulting, as our SAP MII (Project Footprint) implementation partner as they provided a solid working methodical foundation and positive experience for me and my team. The feedback we have been receiving from our staff has been exciting as they have embraced SAP MII and are asking when the next phases can be implemented. I would like to point out that RTS' knowledge and expertise on the plant floor was definitely a true asset in making this project a success. I would recommend RTS Consulting as an implementation partner as their approach to projects, SAP MII knowledge and plant floor automation skills helped us deliver a successful implementation with greater than expected ROI.

Regards,

Jim MacPherson
Director of Manufacturing
Maidstone Bakeries,
