SAP DM Implementation Options

Silver Gold Platinum

Silver Package: Rapid Deployment in as little as 4 months

Experienced SAP DM Professionals: Our team is comprised of seasoned SAP DM consultants who are also well-versed in the intricacies of SAP MII and SAP ME. We understand manufacturing challenges and offer “fit to standards” solutions.

Innovative Add Ons: RTS has developed innovative add-ons for MES, including MS Teams integration and SAP DM integration with SAP Business One, with even more exciting features on the horizon. Stay tuned for further enhancements that will streamline and elevate your business processes!

Testimonials

F&B Company

“RTS’ approach to the project, SAP MII knowledge and plant floor automation skills helped deliver a successful implementation with greater than expected ROI.”

- Director of Manufacturing, Aryzta Canada Inc.

Tier-1 Mining Company

“The real-time visibility into our plant systems and production status is a critical benefit. We are now continuously improving energy efficiency and fuel management and receive instant alerts of plant equipment issues.”

- Director of Business Technology Services

Why RTS?

RTS is the recognized expert in providing comprehensive SAP MES and Industrial Automation solutions to manufacturing companies. With over 30 years of experience in the realm of manufacturing, RTS delivers cutting-edge Industry 4.0 and Digital Transformation solutions to enhance shop floor performance and achieve sustainable business goals. RTS continues to excel in implementing robust systems for a diverse range of companies, from small enterprises to large multinational corporations. While your automation needs are unique, RTS has likely encountered similar challenges and deployed “fit to standards” solutions to meet them. **RTS is dedicated to providing manufacturing organizations with the right solutions to drive success, innovation and production business goals.**
